MPSSAA Executive Director Announces Retirement

MPSSAA Executive Director Ned Sparks has announced his retirement effective August 1. Sparks has served as the MPSSAA Executive Director since 1981.

Some milestones during his tenure include:
* Twice expanding the State Football Tournament;
* Establishing open state tournaments allowing every school to enter the playoffs;
* Establishing state championship tournaments in Girls Soccer, Swimming, Boys and Girls Lacrosse and Dual Meet Wrestling;
* Developing extensive corporate sponsorships;
* Implementing electronic ticketing for state tournaments;
* Launching the MPSSAA website;
* Moving state championships to the best sport-specific venues in the State;
* Providing live streaming of state championships;
* Establishing Student Leadership and Scholar-Athlete programs.

In addition, Sparks has served on the National Federation for State High School Associations (NFHS) Board of Directors, served two terms as Chair of the Boys Lacrosse Rules Committee, Chaired the NFHS Competition Committee, and served on the NFHS Strategic Planning Committee.

Prior to joining the MPSSAA, Sparks taught, coached, and was athletic director at Howard High School for ten years. He began his professional career as a teacher and coach at Mt. Saint Joseph in 1969. He is a graduate of the University of North Carolina where he was a two year letterman on the football team. Please join us in wishing Ned the best life has to offer in his well-deserved retirement!

2015-16 Seeds Announced

SCOUT News and Notes

MPSSAA News and Notes is published by the Maryland Public Secondary Schools Athletic Association for the staff and fans of Maryland high school athletics.

Kim Dolch, President
Edward F. Sparks, Executive Director
Although this will be my last Executive’s Corner I will spare the sentimentality and get down to hopefully some meaningful comments. After all, the focus of our work has always been preparing for the future. It is the youth we serve. This is our profession. As Michael Corleone succinctly put it “This is the life we have chosen.”

Education-based athletics is the model we have embraced to help prepare America’s next generation for life’s journey. It is a wonderful vehicle to teach the skills needed to form good citizens. Today the opportunities and challenges present themselves in far different ways than any of us foresaw just a few years ago. AAU, club teams, personal coaches, college commitments in the 8th grade, transfers, circus-like signing day ceremonies and parents questioning coaches authority have all become part of the athletic experience.

High school athletics are not the only game in town any more. The landscape is so much different and seems to remain in a state of ever changing flux. The challenge we face is to maintain our core principles and values while adapting to the new realities. No doubt maintaining an education focused athletic program will bring differences of opinion regarding its direction, rules, regulations and policies. There are no entirely right or wrong solutions.

At the heart of all these changes however there is one thing that remains constant. One thing that holds true over decades, centuries and millenniums. That constant force is the collection of behaviors known as human nature. While outside conditions evolve and change the consistency of human nature remains as it has been over the centuries of recorded civilization. Circumstances may change but human reactions such as happiness, sadness, joy, pride, shame, strength, resolve, fright, anger etc. are all part of our being and will be with us for civilizations to come.

Human nature will always yearn for structure, consistency, parameters on behavior, opportunity, equal treatment and personal safety. As a result, those principles should be the guiding influences of school athletic programs. As we adapt to changing forces let us never forget the core principles that have provided the foundation for a school program that impacts 113,000 students each year in our State. Staying true to those core values, sometimes in the face of criticism and scorn, is the most important thing we can do to preserve education-based athletics. Strength and resolve in remaining true to core values is the greatest gift we can give to those we are privileged to serve.

Finally, as the MPSSAA turns a corner please accept my congratulations to everyone that has contributed to the meaningful opportunities that have been provided to Maryland’s student-athletes. Your efforts have made a difference. Well done!

Ned

Forty-five aspiring leaders of Joppatowne athletics attended the first Captain’s Academy on June 3rd, 2015. The Academy had a goal to open up the dialog between athletes, coaches, and the athletic director across all seasons and sports. All of the students who successfully completed the Academy are eligible to be chosen as captain for their athletic teams for the 2015-2016 season. The Academy was free to attend and open to all athletes to encourage even students who do not aspire for the title of captain to still develop as a young adult together with other athletes.

The event was held after school from 2:30pm until 7:30pm with snacks, drinks and dinner provided by the Joppatowne Athletic Boosters. After a general overview of the Academy, and opening remarks from their Principal, the 45 athletes were broken into four groups for break-out sessions led by coaches and the athletic director. There were four different 45-minute sessions in which the athletes were able to work through important aspects of being a leader as a student-athlete.

One session broke down popular songs in which lyrics and messages were inspected to create a clean standard of songs to be used for warm-ups allowing Joppatowne to confidently host other schools and represent themselves with dignity and class even through the music selection. Students were able to talk about why small details, like warm-up music, is important and how messages reflect all of Joppatowne.

In another break-out session, students worked through a variety of different scenarios that are likely to encounter during a typical sports season. “This gave me a real understanding on what I should be doing and want to do,” says Rodney Scott, a rising junior and football athlete.

During the “How to be a Fan” break-out session, athletes used MPSSAA materials to focus on what it means to be a fan who is passionate, loud, and supportive, while representing the school and yourself well and respecting the opponent. It also looked into parent-fans and how to handle athlete’s parents that are not being a respectable fan during an event.

In the 4th break-out session, students were tasked with determining not only what their slogan of “One Towne” meant but also what it looks like and what it does not look like. Students made individual definitions and uncovered some common themes of unity, community, together, team, oneness, and more. Afterwards, they worked together to give both examples and non-examples of “One Towne” through specific actions and concrete steps to put these actions into play on the bus, in the cafeteria, in class, in the hallways and online.

At the end, everyone met in a round-table discussion to give an overview of the night and breakdown lessons learned allowing the night to end the same way it started – together. Students were given the opportunity to grade and reflect on the Academy on paper. The night brought 45 potential captains together in the Captain’s Academy before breaking and going out to execute the lessons learned in the hallways, classrooms, and at home.

The Leadership Seminar kicked off with a powerful message from the One Love Foundation through their Escalation video and workshop on relationship violence. This was followed by breakout workshops presented by the US Naval Academy, MPSSAA, and Harford County Public Schools, supported by the JV and Varsity team coaches at Patterson Mill.

Captain Ryan Barry, a former Midshipmen football player and Captain Daniel Kocab, a former wrestler at Duke University came from the US Naval Academy to present to the students on setting goals, creating a vision, writing a mantra, determining operational strategy, identifying informal leaders within your team, and leading your peers to inspire them to do what they normally wouldn’t do in an effort for gain team success. They concluded with a segment on perception of opponents and creating the image and perception others have of your team and school.

The MPSSAA provided their team building equipment from the state student leadership conference. Students in the gym focused on teamwork and team building activities. The workshop included strategical and physical challenges for small groups to solve together as a team. In each challenge, students moved through a progression where they took on roles that contributed to the overall success of the team.

Additionally, students participated in a workshop with Ken Zorbach, HCPS Supervisor of Physical Education and Athletics, Adam Milanoski, Assistant Principal at Patterson Mill High School, and various Patterson Mill coaches in which the students read through brief scenarios of challenges many teams and captains face during a sports season and they worked together in small groups to determine the best course of action to handle the issue facing them in the scenario. After discussing the core issue, students presented plans they would enact to handle the issue in the role of a team captain. Students considered potential variables in the scenarios, and focused on accountability, character, integrity, consequences, fairness, and consistency to guide their solutions.

Participants took a break for a networking dinner provided by the Patterson Mill Athletic Boosters and the evening conclude with a brief student feedback survey prior to each participant picking up their certificate for completing the program and a Huskies Captain’s Clinic t-shirt.
Non-School Teams

There are some significant MPSSAA bylaws and interpretations regarding out-of-season competition. In an effort to help schools, below are some explanations of the changes to interpretations made at the December 6, 2012 Board of Control meeting regarding non-school teams and team camps.

While the regulation prohibiting school teams from attending a camp remains in place, those restrictions do not extend to non-school teams. The key words are non-school teams. That means that a team attending a camp along with a member of a school coaching staff must be able to clearly demonstrate that there is no school affiliation what-so-ever. That includes but is not limited to funding, organizational meetings, uniforms, equipment, etc.

The following language was adopted by the Board of Control and should serve as a directive for those coaches wishing to be associated with non-school teams beginning after the last 2015 spring state championship game.

Any paid or volunteer coach at a member school may coach a non-school team provided the team has no direct affiliation with the school. When coaching non-school teams, including returning school players on non-school teams, the following criteria shall be observed:

- The non-school team may not use a name directly connected with the school.
- The non-school team may not use school uniforms, equipment or funds.
- The non-school team may not use school facilities except as allowed by local school system guidelines.
- The non-school team must meet local school system standards of a non-school team.
- The number of returning school players on the non-school team is limited according to the following timeframe.

1. From the start of the fall sports season as defined in Regulation .03, to the last state championship game of the spring season, the outside teams roster does not exceed 80% of the returning players of what would constitute a starting lineup in that sport OR a modified version thereof. i.e., 7-on-7 football, 3-on-3 basketball, indoor soccer, indoor lacrosse, etc.

2. From the last state championship game of the spring season to the first day of fall practice, the outside team roster is unrestricted on the number of returning players.

Student-Athlete Leadership Conference Information

The MPSSAA Executive Council approved establishing a 24-year semifinal seeding cycle based on the 2013-14 pairings as established at the April 26, 2013 Board of Control meeting. The pairings below ensure over any four-year cycle each region will be seeded one through four once, each region will play the other regions four times during a 12-year cycle and semifinal pairings and seeds will not be repeated in consecutive years. While scheduling so far into the future is at best speculative, the cycle below provides direction into the foreseeable future.

The suggested guidelines for local consideration are intended to provide direction to school teams for the acclimatization of student-athletes during preseason practice period required prior to the first play date. Each local school system is required to have their own policy for heat acclimatization and schools should check with their respective local school system regarding the specifics of their local policy.

MPSSAA Fall Rules Interpretation Clinics

Attendance at a rules interpretation clinic is a certification requirement for officials assigned to MPSSAA contests—both regular and post-season play. COACHES ARE STRONGLY ENCOURAGED TO ATTEND! Please continue to check the officials page on MPSSAA.org for the latest information on all clinic dates. You may also email Donnee Gray at Donnee.Gray@Maryland.gov.
